

## Inside this issue:

CAMPUS MOBILE APP	1
UPDATED PHONE #'S	1
IC INTERCHANGE	1
P20 COLLABORATION	2
HEALTH SERVICES DATA	2
CHITS	2

**“It’s not the load that breaks you down - it’s the way you carry it.”**

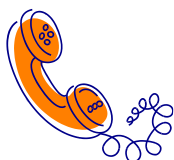

**-Lou Holtz**

The 2011-12 KDE Data Standards are posted on the KDE website [here](#).

### UPDATED PHONE NUMBERS

Please note that the Enterprise Data Team (formerly KSIS Branch) has new phone numbers and direct extensions.

The new phone number is **(502) 564-2020**; the extensions are listed below.

Garnetta Barnette, ext. 474

Becky Jenkins, ext. 475

Lisa McKinney, ext. 476

Ed Maddox, ext. 472

Leigh Welch, ext. 477

## CAMPUS MOBILE PORTAL APP FOR PARENTS, STUDENTS

Parents, guardians and public school students can access grades, attendance information and more through the Campus Mobile Portal app, the first in a series of fully-integrated, easy-to-use mobile learning tools.

The new Campus Mobile Portal is available for free from the App Store<sup>SM</sup>. Once the app has been installed on an Apple® iOS device (iPod Touch®, iPhone®, iPad®), parents and students can access grades, attendance and schedule information virtually anywhere.

The Mobile Portal offers several functions:

- ⇒ **Daily Planner** lets students to know exactly when and where they need to be and to see the assignments coming up in each of their classes.
- ⇒ **Assignments** provides detailed information about what students are (present), were (past) or will be (future) expected to do in each class.
- ⇒ **Attendance** provides both summary and detail information about absences and tardies.
- ⇒ **Grades** provides immediate access to the important metrics of success and allows parents and students to “drill down” to the assignments that make up a particular grade.
- ⇒ **Notifications**, once enabled by the district, allows parent and student subscribers to receive notifications regarding changes to assignments, grades and attendance according to their individual notification preferences.

## INFINITE CAMPUS INTERCHANGE ... LEARN WHAT’S POSSIBLE

The theme, Learn What’s Possible, is about discovering the possibilities Infinite Campus has to make your job easier while bringing together the IC community of customers, partners and staff to support and encourage each other through continued sharing of ideas.

Interchange is an opportunity for you and your staff to obtain low-cost professional development. The event will take place Nov. 16 and 17 in Louisville.

## **ALERT: Annual P20 Extracts from Infinite Campus**

The P20 collaborative is a combination of educational records on K-12 students, and information from the Educational Professional Standards Board (EPSB) and Council on Postsecondary Education (CPE) for research and reporting.

K-12 data includes student information (see list below) and school and district information such as location, teachers and leadership.

- |                  |                     |
|------------------|---------------------|
| • accountability | • GED               |
| • assessment     | • gifted/talented   |
| • attendance     | • GPA               |
| • behavior       | • grades            |
| • courses        | • graduates         |
| • demographics   | • LEP               |
| • dropouts       | • preschool         |
| • enrollment     | • special education |
| • FRYSC          | • Title I Services  |

On Oct. 28, the 2010-11 school year data will be extracted from IC and provided to the P20 Collaborative. The data from the P20 repository will be reported publically and to the legislature.

Please help ensure your data is reported correctly by emphasizing complete and accurate data collection in your district and schools. High-quality data will lead to high-quality research.

Early Childhood and Workforce data is expected to be added for 2012 reporting.

## **Changes in Health Services Immunization Data Entry and Individual Shot Compliance Reporting.**

*Please share this information with your school health district coordinator and school health services staff.*

KDE leadership has determined that, beginning with the 2011-12 school year, the only end-of-the year data collection for immunizations shall be:

1. Immunization Certificate Expiration Date
2. Type of Immunization Certificate

School districts are no longer required to enter individual shot data for immunization compliance data reporting.

School districts may wish to continue to enter individual shot data to facilitate the completion of the annual local health department immunization survey; however the individual shot data entry will be a local district decision.

The 2011-12 KDE Data Standards document and the KDE Health beginning-of-year document include the updated changes for immunization data entry requirements. If you have further questions, please contact Karen Erwin at [karen.erwin@education.ky.gov](mailto:karen.erwin@education.ky.gov).

The next release of the CIITS is scheduled to go live in November. This version includes student demographic information and will require a unique log-in for each user, which they will receive by e-mail in early November.

Everyone with a valid e-mail address in Infinite Campus (IC) will be able to log in to CIITS with access based on their assigned roles. Teachers will have access to their students; principals and superintendents will have access to students in their respective schools or districts. All others will be set up in the Staff role with access limited to standards, instructional resources and aggregate reports. These roles and permissions will be set up automatically based on information in IC.

If individuals require additional access within CIITS, they must be assigned one or more custom roles: Specialist, Analyst, Test Item Administrator and Assessment Manager. These roles must be set up in Infinite Campus with an indicator of whether the role includes a school-level or district-level permission. Detailed instructions will be sent to the KSIS Contacts describing how to update the information in IC for these individuals. Please alert those in your district and school that maintain the Employment Assignment Information in IC that they will need to make these updates.

If you have employees that need access to CIITS, and they don't have access to IC, please work with your staff to let them know the procedures for requesting IC access within your school or district.

IC is the authoritative source for data within CIITS, so it is imperative that it is accurate and up to date. The data transfer will be automatic. Please inform anyone in your district who enters data into IC about the importance of this matter.
